## TECHNICAL SKILLS

**Languages**
PHP, JavaScript, SQL

**Backend**
Laravel (Eloquent ORM, Middleware, Artisan), Symfony, CodeIgniter, RESTful APIs, MVC, OOP

**Frontend**
Vue.js, HTML5, CSS3, AJAX, Responsive UI

**Databases**
MySQL, Query & Schema Optimization

**Integrations**
Third-Party APIs, WhatsApp Integration, Email Notification Services

**Security**
Authentication & Authorization, Role-Based Access Control

**Tools & DevOps**
Git, CI/CD

**Practices**
Agile/Scrum, Code Reviews, Debugging & Troubleshooting, Cross-Functional Collaboration

**AI & Automation**
Generative AI Fundamentals (Anthropic Certified), Prompt Engineering, LLM API Integration (Claude API), AI-Assisted Development, Workflow Automation

**Currently Upskilling**
Vue 3 (Composition API), TypeScript, Pinia, Redis, Docker, Pest/PHPUnit, AI agents & RAG

# VIVEK KRISHNAN

### Software Engineer | Full Stack Developer (Laravel & Vue.js)

## PROFILE SUMMARY

Full Stack Developer with **4+ years** of experience building business web applications and **REST APIs** with **PHP, Laravel, Symfony, CodeIgniter, Vue.js and MySQL**. Currently building a real-estate **CRM platform** in Dubai covering lead management, WhatsApp/email automation, **role-based access control** and database performance tuning. Strong in feature development, third-party integrations, query optimization, troubleshooting and maintenance. Applies **Generative AI** (Anthropic-certified) to automation and AI-assisted development. Collaborates well with cross-functional teams and stakeholders, turning business requirements into scalable solutions in Agile environments.

## PROFESSIONAL EXPERIENCE

### Full Stack Developer | Property Matters | Dubai, UAE
**Mar 2025 - Present**

- Engineered CRM modules for lead management, property listings and client relationship workflows using **Laravel, Vue.js and MySQL**.
- Built responsive Vue.js front-end components for efficient property and customer management.
- Designed and implemented **RESTful APIs** enabling secure communication between the front end and integrated services.
- Integrated **WhatsApp and email notifications** to automate customer communication and engagement workflows.
- Optimized database queries and schema design to improve responsiveness as data volumes grew.
- Implemented authentication and **role-based access control** to strengthen platform security.
- Worked with stakeholders to translate real estate business requirements into scalable software.
- Managed source control and deployments through Git and CI/CD.

**Environment:** PHP, Laravel, Vue.js, MySQL, REST APIs, Git, CI/CD

### Software Engineer | Lean Transition Solution Pvt Ltd | Trivandrum, India
**May 2023 - June 2024**

- Delivered feature development and enhancements for the **T-Card application** using Symfony and CodeIgniter.
- Translated business requirements into maintainable application components aligned with operational needs.
- Contributed to solution design discussions and framework best practices within the PHP team.
- Wrote clean, well-documented code following team standards; participated in code reviews to improve quality and consistency.
- Diagnosed and resolved application issues through structured debugging and troubleshooting.
- Maintained and enhanced the platform through ongoing improvements.

**Environment:** PHP, Symfony, CodeIgniter, MySQL, JavaScript, HTML, CSS, Git

### Associate Software Engineer | Spawoz Technologies Pvt Ltd | Kochi, India
**Dec 2021 - Apr 2023**

- Developed web applications using **Laravel, JavaScript and MySQL** to support business and user requirements.
- Built new features with cross-functional teams across the software development lifecycle.
- Integrated third-party APIs and external services to extend functionality and improve operational workflows.
- Enhanced existing systems through bug fixes, feature upgrades and improvements.
- Applied secure development practices to support application security and data protection.
- Maintained well-structured, scalable code for long-term reliability.

**Environment:** PHP, Laravel, JavaScript, MySQL, REST APIs, Git

## EDUCATION

**B.Tech - Electronics and Communication Engineering**
Jawaharlal College of Engineering and Technology
2014 - 2018

## CERTIFICATIONS

**Claude 101 (Generative AI Fundamentals) - Anthropic**

**Advanced Embedded Systems Certification | 2018**

## LANGUAGES

English - Fluent
Malayalam - Native
Hindi - Conversational
Tamil - Fluent

## PROJECT EXPERIENCE

### PropCRM - Real Estate CRM Platform

**Role:** Full Stack Developer | **Technologies:** Laravel, Vue.js, MySQL, REST APIs, Git

SaaS-based CRM for real estate professionals to manage leads, properties and client relationships in one centralized application.

- Developed CRM modules for lead management, property listings and client tracking.
- Designed and implemented RESTful APIs connecting front-end and back-end components.
- Built responsive Vue.js interfaces to improve usability across core business operations.
- Integrated WhatsApp and email notification services to support customer engagement.
- Optimized database operations to improve performance and scalability.
- Implemented authentication and role-based access controls to protect user and business data.

## INTERNSHIP EXPERIENCE

### Software Trainee (Internship) | Zewia Software Solutions Pvt Ltd

**May 2021 - Dec 2021**

- Supported web application development, testing, debugging and issue resolution under senior developer guidance.
- Gained practical exposure to software development processes, coding standards and team-based delivery.
